**CORD, PART 2:** Draw up a loop of A in the top right corner of the bow, work ch stitches to desired length. Fasten off, leaving a long tail. Thread a medium white button to the tail and with a tapestry needle, weave in the end.

Note: Hemp yarn tends to curl and pucker at times, when crocheted or knitted moistening the work with water and allowing it to dry will remove the curling and puckering.

### *FAQ's*

**Q:** Can I use a different size hook?

**A:** Probably. As long as the different size is just one or two off from the one listed, it should be ok.

**Q:** What kind of yarn is Jenny using?

**A:** Jenny is using 3-ply hemp yarn for this project, but you can use any super fine, fingering, or baby-weight yarn that you have on hand. For the green circle on the gift topper variation, Jenny is using Lion Brand LB Collection Cotton Bamboo in Snapdragon, but you can use any light worsted-weight or double-knitting (DK) yarn that you have.
